

Bug ID: Bug_001

Title: Error message when loading initial page for the first time.

SO: Windows 11

Environment: Production

Severity: Minor

Reproducibility: 100%

Priority: TBD

Pre-conditions:

A new and clean instance of the browser.

Steps to reproduce:

1. Open the login page <https://townsq.octadesk.com/login> then observe.

Current behavior:

- An error message "Ih, ocorreu um erro. Por favor, tentar novamente."

Expected behavior:

- The page should be loaded properly without any issue or error messages.

Additional notes:

- The issue only happens using a new and clean instance of the browser.
- See the attached screenshot:

Bug ID: Bug_002

Title: User redirect to wrong page when entering invalid credentials

SO: Windows 11

Environment: Production

Severity: Minor

Reproducibility: 100%

Priority: TBD

Pre-conditions:

Invalid credentials (email and password)

Steps to reproduce:

1. Open the login page <https://townsq.octadesk.com/login>
2. Insert invalid credentials then click "Entrar"

Current behavior:

- User is redirected to an account expired page.

Expected behavior:

- The user should receive an error message like "credenciais inválidas, tente novamente".

Additional notes:

- See the attached screenshot:
